## MAGNA MA04+ GIANT E4

Rigid dump trucks are built to haul heavy loads over long distances on rough and rocky terrains. In these severe conditions, tyres have to offer good stability and traction even at high speeds.

The radial constructed Magna MA04+ Giant features an aggressive E4 pattern specially designed for Rigid dump trucks.

The deep aggressive E4 pattern provides traction and long tread life.

All steel radial construction. Improved protector plies optimize load performance and operator comfort.

New improved technology of the high-tech casing reduces heat build up inside the tyre.

Tyre size	Pattern	Load symbol	Tra code	Max. speed (km/h)	Load/speed index	Single max. load/pressure	Rim	Overall Diameter (mm)	Section Width (mm)	Tread Depth (mm)	TKPH
