## MAGNA MB10 L5

The Magna MB10 is an all cross ply constructed tyre specially designed for loaders in extreme and rocky conditions including in some cases underground operations.

The Magna MB10 is impact and cut resistant thanks to the optimized compound, the reinforced protection ply and the tread depth. The shoulder groove creates an optimized design for traction and evacuation, with a smooth central pattern for adhesion and protection.

Extra deep L5 tread pattern for excellent traction in the most severe circumstances.

All cross-ply construction. Improved protector plies optimize load performance and operator comfort.

New improved technology of the high-tech casing reduces heat build up inside the tyre.

Tyre size	Pattern	Ply Rating	Tra code	Speed Symbol	Max. Speed (km/h)	Single max. load/pressure	Overall diameter (mm)	Section width (mm)	Tread depth (mm)	Rim
20.5-25	MB10	20	L5	186A2	10	9500kg/ 4.50 bar	1550	520	79	1700/2.0
23.5-25	MB10	24	L5	196A2	10	12500kg/ 4.75 bar	1675	595	84	19.00/2.5
26.5-25	MB10	28	L5	203A2	10	15500kg/ 4.75 bar	1800	675	91	22.00/3.0
