

MINING & EARTHMOVER

MAGNA MU30

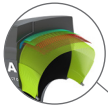

E4/L4

The Magna MU30 is a perfect match for your underground dump trucks, loaders and dozers.

The wide grooves and channels will give your underground machines more grip on multiple ground conditions. And the most important is that the MU30 will increase the tyre load and in order to reach the cost targets.

Massive lugs and cut-resistant centre provide tread robustness and increased service life

Outstanding damage resistance and load capacity due to the reinforced radial casing.

The Reinforced sidewalls provides increasing shock and abrasion resistance

Tyre size	Pattern	Tyre Type	Load symbol	Tra code	Load / Speed Index	Max. load capacity (kg)	Recommended inflation pressure (bar)	Rim	Overall diameter (mm)	Section width (mm)	Tread depth (mm)
